Thought of the Week-

“Our cultural strength has always been derived from our diversity of understanding and experience.” Yo-Yo Ma

Word of the Week-
Diversity: A range of different things.

Creativity has been a lifeline during lockdown, especially for children and young people. During the first lockdown, I saw so many examples of our students using their creativity to express themselves and to connect to the outside world. It is good to see this again now. This week, Year 7 have been designing patterns inspired by microscopic cells, Year 8 have been researching Mexican artists for their Day of the Dead project and Year 9 are manipulating paper to create textural forms within their Visual Elements unit. I am proud of our KS3 students and the amazing art work they have uploaded this week. Stay safe,

Mrs Smith Art Coordinator

The Tate Gallery has a great website if you want to get even more creative
